

# School Council Priorities 2018-19:

- Choose charities to support
- Raise money for the school and decide how to spend it
- Develop reading areas to make sure they are fun and comfortable and encourage a love of reading across the school

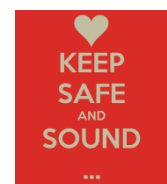

- Monitor and improve PE levels across the school– are all children doing 4 hours of physical activity per week?

- Ask all children to complete a survey about school. Analyse children's survey results and feedback to staff, governors and children

- Think about ways of keeping children safe in school and what we can do to make this even better

- Promote and improve writing outcomes across the school by encouraging independent creative writing opportunities
